*All prices subject to VAT at 20%

NOTE: Advertisers to supply complete, ready-for-use artwork in electronic format. See overleaf for details. BVAA can arrange artwork preparation, subject to a handling fee.

General formats are as follows:

Photographs should be supplied as best quality to guarantee faithful reproduction in the magazine. Images should be supplied in either TIFF, EPS, or high resolution JPEG format.

Company logos should be in either Adobe Illustrator or as a high resolution JPEG format. Taken from a website is not good enough for print production.

For adverts, ideally high resolution pdfs are required. This ensures the artwork is as the creator intended and there should not be any font substitution.

Adverts can also be supplied in Adobe InDesign 3, or Quark Xpress 5.0, with the images and fonts included.

Photoshop TIFF, EPS or JPEG at 300dpi at size. Adverts supplied in MS Word or Publisher are not suitable.
