# Stay ahead with our technical team

---

When you're a member of the British Valve & Actuator Association, we'll help you stay on top of every technical innovation; with free support from our experienced team, industry-leading training, plus access to the latest developments.

British Valve & Actuator Association

---

*Our mission*

To create value for our members by providing excellent business networks, new business opportunities, industry recognised training, technical expertise and influence.

---

# Supporting your business

At BVAA we work hard to give our members a technical edge. The technical features of membership are:

## Free Technical Advice

Benefit from the vast experience of BVAA's Technical Consultant - an extension to your own technical team, queries via phone and email are included in your membership

## Standards Updates

Be the first to hear of confirmed and proposed standards changes with BVAA 'technical hot spots'

## Annual Technical Conference

Keep up to date with developments and network with peers

## Representation

BVAA provide members with UK, EU & ISO representation at political and technical meetings

## Free Technical Directives and Guides

Industry formulated guidance on all relevant European technical directives

## Technical Working Groups

Discuss technical issues with industry peers. Influence the future of valve and actuator standards

## Industry leading training

All courses technically led with practical examples

## Weekly e-newsletter

Latest news from BVAA including technical updates

An independent, not-for-profit, technically led organisation for over 75 years

## Support in all areas from the BVAA team

We exist to support our members

## Technical articles in Valve User Magazine

Got a technically innovative product? Tell potential customers via Valve User Magazine, we'll even help you write the story!

## PLUS

Keep up to date with technical advancements within the industry through the premier valve and actuator journal

## Market Forecast Reports

Detailed five year industry forecasts by region, industry and product type

## R&D Funding

BVAA are often among the first to know where R&D grants can be obtained

Provide industry specific technical support to Government, HSE etc. on behalf of industry

## Technical Benefits

Your engineering and development teams will love being a BVAA member:

Be the first to know of confirmed and proposed standards changes

Help shape and influence the technical future of our industry

Have your say on proposed and draft standards

Build a network of peers within the industry

“Participating in BVAA’s Valve Working Group has allowed us to have a say in the future of our industry”

*Peter Burnett, Heap & Partners*

## Working Groups

BVAA host technical working groups in the following areas:

Valves

Actuators

Training

Valve Repair

Seals

**PLUS:** Groups formed on an ad-hoc basis to address issues emerging from the industry

---

## The Valve and Actuator User's Manual

“We wrote the book on valve engineering”

The Valve and Actuator User's Manual is the mechanical engineer's companion when it comes to valves and actuators. Listing and explaining all common valve and actuator types it is as useful for the graduate as it is the senior engineer.

Now in its 50th year of continuous publication, after several updates and revisions it remains popular with BVAA members and industry alike. When we say BVAA 'wrote the book on valve engineering', we mean it!

Find out more about all the ways your business could benefit with the BVAA. For a no obligation discussion:
