Industry Recognised Training

Classroom & Online Training

Suitable for everyone in the industry, from graduates and those starting out in the world of work to experienced engineers looking for specialist and in-depth training.

Our training is not only delivered by some of the industry's most knowledgeable lecturers, but is independent of any particular brand or product type.

Courses are face-to-face at our Banbury HQ, online via Teams, or at your own premises.

Current Training Courses:

- Introduction to Valves*
- Introduction to Valve Actuators
- Control Valves*
- Safety Valves*
- Valves - Advanced Level*
- EU Directives for Valves*
- Safety Integrity Levels (SILs)
- Online PED Refresher

Industry Leading, Independent Training

On-Site Training

Host valve and actuator training at your premises - save time, save money and increase profits!

Our technical experts can work with you to develop **NEW, BESPOKE COURSES**, or deliver our standard courses tailored to your specific needs.

About

Launched in 2016, the 'FLP' is BVAA's bespoke programme developing talented individuals identified by their employers as potential future leaders of the British Valve and Actuator Industry.

Each year, candidates are nominated by a senior BVAA member-company executive, then an interview process will decide which candidates are accepted on the next cohort, with the programme starting in spring each year.

What does it cover?

Delegates will undertake a series of Personal Development courses, valve-industry experiences, arrange technical and commercial excellence presentations, receive free BVAA technical training and a range of visits to manufacturing centres, R&D and engineering excellence sites, refineries, power stations etc. as well as first-class networking opportunities.

BVAA will also support first-year professional registration. Qualifying delegates will attain a formal qualification recognised by the Chartered Management Institute. The programme closes with a formal presentation to the BVAA AGM.

Membership Criteria

Memorandum and
Articles of Association

Membership Application Form

Turnover Declaration Form

- Membership of the Association is open to companies registered in the UK who will subscribe to the BVAA Memorandum and Articles of Association, and who manufacture, distribute and/or repair industrial valves and/or actuators and/or related products.
- All applicants must have filed at least one set of formal UK accounts.

The Next Step

- Contact Rob Bartlett, Director and CEO, for a no obligation, initial discussion on 01295 221270.
- An appointment will then be made to visit your premises to explore fully the benefits of membership and learn about your business.
- A completed application form will be submitted to our Board for approval.
- We will contact you to confirm your membership, and you will have immediate access to all benefits upon payment of subscription.
